Clarification

Hello reviewer,

I hope you are doing well.

Referring to the author's name is not a reason to stop my evaluation as I'm working on my brother's laptop, his name is Ahmed as you may see in the author's name, I don't know what the problem in that is, you didn't state at the beginning that I must work on my laptop so, I can work on any laptop I want.

Anyway, if you have any source that has a code that is the same as mine you can confront me with it or if you don't, which I believe, you may get an online meeting with me and I will discuss with you each point of the project and prove to you that this is code is totally my own and I didn't even get anyone to look at it further than helping me with it.

Note: My national ID is attached in the file below.

Best regards,

Mahmoud Mostafa Tayee.
